

# Data Execution Prevention (DEP) fix.

**When your Silkroad.exe close instantly, is DEP issue.**

- **Open System Properties:** Right-click **This PC** (or **Computer**) and select **Properties**, then click **Advanced system settings**.
- **Go to Performance Settings:** In the **Advanced** tab, click **Settings** under the **Performance** heading.
- **Select the DEP tab:** In the **Performance Options** window, go to the **Data Execution Prevention** tab.
- **Enable custom exceptions:** Select the option "Turn on DEP for all programs and services except those I select".
- **Add the program:** Click the **Add** button.
-

**Locate and select the file:** Browse to the ExaySRO installation directory, find the executable file ([sro\\_client.exe](#) | [Silkroad.exe](#) | [replacer.exe](#)), and click **Open (do this for all 3 exe files)**.

•  
**Apply and restart:** Click **OK** in the **System Properties** window, and then restart your computer for the changes to take effect.
