

9) Silkroad Already Executed

Symptoms: After open Silkroad.exe this error popup.

Resolution: You have already started a client, or your client has crashed but process sro_client.exe is still active, close it from [Task Manager] or *Start as Administrator* file SRO_Killer.exe in your game folder, this will close all Silkroad.exe and sro_client.exe on your computer.

Or you can just restart your PC to be sure all has been closed.

Reminder, with Silkroad.exe you can start just 1 client, to have multiclient use any BOT you have (we do not provide any)

or use Loader [\[edxSilkroadLoader\]](#) that can be download from our website.
